

One Ford Road receives CLCA award

21 Dec, 2010

SAN CLEMENTE, CA — Bemus Landscape, Inc., announces that One Ford Road, a residential community in Newport Beach, CA, received the 2010 John Redmond Memorial Trophy Award for best landscape maintenance in California.

The award was presented by the California Landscape Contractors Association at its annual convention in November. The award is sponsored by Landscape Contractors Insurance Services, Inc.

"We are honored to be recognized by our peers in the Green Industry," says Bemus General Manager Jon Parry. "One Ford Road has been in our care since we installed the gardens more than a decade ago. Our team makes a dedicated effort to provide environmentally sustainable solutions; this award reminds us that long-term thinking delivers consistent and beneficial results."

One Ford Road, a 35-acre community built on the site of a former Ford aerospace plant, was recognized for the health and vitality of its semi-formal gardens, mature trees, and water features. The property's landscape includes rose gardens, cultivated green space, a professional quality putting green, and heritage trees all irrigated by water-smart conservation technology.

In addition to receiving CLCA's statewide Trophy Award, Bemus and One Ford Road were recognized by the Professional

Landcare Network (PLANET) with a 2010 national environmental improvement award of merit for excellence in landscaping.
